SAMUEL FELIX

Junior DevOps Analyst

São Paulo, Brazil | samu_felixsilva@outlook.com | linkedin.com/in/samuelfelix

PROFESSIONAL SUMMARY

DevOps professional with hands-on experience in Kubernetes (k3s), GitOps and CI/CD on Azure DevOps, gained by migrating .NET APIs from Windows/IIS to Linux containers. Four-year background in Windows workstation support and administration. Microsoft Certified: Azure Administrator Associate (AZ-104). Advanced English.

PROFESSIONAL EXPERIENCE

Stefanini Brasil | São Paulo, Brazil

DevOps Analyst | 01/2026 - present

- Deployed from scratch the internal development team's Kubernetes (k3s) platform, with Argo CD, Argo Rollouts and Harbor, and became responsible for its operation and for server maintenance.
- Containerized and deployed to k3s, across dev, QA and staging, 15+ .NET APIs and 3 frontends previously hosted on Windows/IIS, using multi-stage Dockerfiles and a Helm chart per service.
- Built YAML pipelines in Azure DevOps to build the image, push it to Harbor and commit the new tag to each environment's values file, synced by Argo CD (GitOps).
- Implemented blue-green deployments with Argo Rollouts and a manual approval in Azure DevOps before each new version is committed.
- Configured liveness/readiness probes in the Helm charts, ResourceQuota and LimitRange in all namespaces, image retention in Harbor and TLS on the Traefik ingress.

IT Support Analyst | 09/2021 - 12/2025

- In the Windows 11 migration of 5,000+ workstations across Brazil, built and validated the image on Hyper-V, rolled it out via KACE in rings, mostly remotely, and served as the focal point for troubleshooting.
- Automated in PowerShell the domain migration and multi-step installations of various applications, with prior uninstallation and user notifications.
- Applied hardening and patches to Windows images through registry settings, following the Security team's baseline and the OS CVEs flagged in Nessus scans.
- Prepared VDI environments on Nutanix and supported corporate users, including VIPs.
- Recognized in Stefanini's annual talent program (Talento Stefanini) in 2023, 2024 and 2025.

J Brasil Log | São Paulo, Brazil

General Office Assistant | 08/2020 - 09/2021

- Served end customers, planned delivery routes and prepared cost spreadsheets in Excel.

EDUCATION

B.Sc. in Computer Science | Impacta Tecnologia | 02/2023 - 12/2026 (expected)

Capstone project: gamified information security awareness app, built on Microsoft Azure.

CERTIFICATIONS

- Microsoft Certified: Azure Administrator Associate (AZ-104)
- Microsoft 365 Certified: Modern Desktop Administrator Associate (valid through 2027)

TECHNICAL SKILLS

- Containers & orchestration: Kubernetes (K8s/k3s), kubectl, Docker, Helm, Argo Rollouts
- CI/CD & GitOps: Azure DevOps Pipelines (YAML), Argo CD (ArgoCD), Git, TFS
- Registry & networking: Harbor, Traefik (Ingress), TLS
- Systems, cloud & scripting: Linux, Windows, Microsoft Azure, PowerShell, Bash (basic)
- Virtualization & endpoint: Hyper-V, Nutanix (VDI), KACE, Windows image hardening
- Currently learning: Terraform, Python

LANGUAGES

Portuguese: native | English: advanced (full professional proficiency)
